Allowable Subject Matter

Claims 11, 13-20 and 22 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

Regarding claim 11, prior art of record neither shows nor suggests the combination of limitations set forth in claim 11, particularly the limitation of the length of second division electrode in the axial direction of the tube is within the range of from about 1.0 to 1.6 times the diameter of the single opening in the surface of the second division electrode in a direction at right angles to the in-line direction, and the speed modulation coil is installed so as to surround the neck portion of the envelope of the color cathode ray tube where at least the first and second division electrode of the focusing electrode of the electron gun is disposed.

Claims 13-20, and 22 are allowed for being dependent on allowed base claim 11.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
